

It is illegal to dispose of latex or oil based paint in the trash. Empty latex paint cans may be placed in the trash if the residue is completely dried up. Any paint or other containers are taboo. The place to take them, or any hazardous material, is the household collection site on Jackson Road in Venice. The directions to that facility are: Venice avenue to just over a mile beyond that nightmare intersection with Jacaranda and then right on Jackson road. There is a Household Collection sign at the intersection. The facility is about a half mile up on the right. It is open Wednesdays through Saturdays from 8:00AM - 4:00 PM.
