All fertilizers are 50% slow release and compliant with Sarasota County Ordinance. No nitrogen or phosphorus applications may be done June 1st thru Sept 30th. All chemical applications are of an I.P.M. methodology, using the latest chemicals and technology. In May – All turf areas will be sprayed with a neonicotinide for nuisance ants, chinch bugs and grubs

Hoskins Pest Control

Hoskins will spray the interior of each unit once a month on a Tuesday to keep insects under control.
